

Arvind G

PROFILE SUMMARY

Results-driven *Data & AI Engineer* with around 4 years of experience designing scalable data platforms and next-generation AI systems on Microsoft Azure. Specialized in Generative AI, Agentic AI workflows, LLM-based applications, and autonomous AI agents using LangChain, with strong expertise in Python, SQL, and distributed data processing.

PERSONAL INFORMATION

Languages: **English, Hindi, Tamil**

SKILLS

- **Languages & Frameworks:** Python, SQL, PySpark, JavaScript, Node.js, React, FastAPI, Flask, Streamlit
- **AI & GenAI:** LLMs, RAG, Vector Databases, LangChain, LangGraph, Prompt Engineering, Fine-tuning, LLM Evaluation, Guardrails
- **Agentic AI:** Autonomous Agents, Multi-Agent Orchestration, Tool Calling, AutoGen, CrewAI, MCP
- **ML & Data:** Supervised & Unsupervised Learning, NLP, Scikit-learn, Apache Spark, Databricks, Azure Synapse
- **Cloud & MLOps:** Microsoft Azure, Docker, Kubernetes, CI/CD, Model Deployment & Monitoring, Git, GitHub Copilot

EXPERIENCE

DATA ENGINEER INTERN at HP Inc

03/2022–08/2022

- **Automated BMT & BMDIS Processes:** Built Selenium-based Python bots to reduce manual effort, cut turnaround time, and improve efficiency by 50%.

DATA ENGINEER at HP Inc

08/2022–Present

- **CCO Executive Chatbot:** Built a conversational Agentic AI BOT for the Chief Commercial Organization using OpenAI Agents SDK, MCP, and Databricks Genie — giving C-suite and sales leaders natural-language access to live sales, funnel, and financial data, eliminating analyst dependency.
- **Agentic Generative AI Platform – Competitive Intelligence:** Built an agentic AI solution using LangChain autonomous agents with tool calling and multi-step reasoning to deliver real-time competitive intelligence, boosting sales enablement and customer engagement.
- **LLM Chatbot for FDL Onboarding:** Developed a internal RAG-based chatbot using LangGraph for agentic orchestration, LangChain for retrieval pipelines, and Azure AI Vector Store for semantic search — cutting manual query resolution time by ~ 60% and improving developer and support productivity
- **Finance – Orders & Shipments Cloud Migration:** Led large-scale migration of financial data from the on-premises to the cloud.
- **Core Python Compute Engine Framework:** Redesigned legacy ETL workflows by implementing a federated cloud-native data lake on Azure, resulting in faster processing and enhanced scalability.
- **AI/ML Architecture Review Board Coordinator:** Directed enterprise-wide review sessions to ensure all Generative AI projects met HP's governance, security, and compliance standards.

EDUCATION

- Executive M.Tech in Data Science & Analytics (Ongoing)
IIT Bhilai **2024–2026**
- B.Tech in ECE, Minor in Computer Science
Pondicherry Engineering College **2018–2022**
CGPA: 9.63 / 10

ACCOLADES

- Recognized by HP leadership for contributions to the Framework Team and Gen AI initiatives.
- **Gen AI Trainer – HP DAO:** Trained 250+ professionals on real-world Gen AI applications.
- **Academic Topper:** Govt. of Puducherry Merit Prize for securing University 1st rank (CGPA 9.71).
- Received 3 HP Badges: Ambition & Agility, We Grow Together, Customer First
- Toastmasters Member: Active in public speaking & leadership

CERTIFICATIONS

- AWS CERTIFIED CLOUD PRACTITIONER (*Foundational*)
- MICROSOFT CERTIFIED: AZURE DATA FUNDAMENTALS
- DATABRICKS: GENERATIVE AI FUNDAMENTALS
